Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach a machine for performing machining operations on a work-piece comprising: a carriage with a movable head for performing machining operations on a work-piece; a laser positioning determination system operable to determine the spatial relationship of the work-piece, determine the spatial relationship of the carriage and the work-piece, and to further determine the spatial relationship of the head to the work-piece during actual machining operations on the work-piece and to provide a second signal representative thereof; and a computer to provide a signal to the movable head for machining the work-piece on a predetermined spatial relationship.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
